Here's one of your finest opportunities to join the continually growing list of satisfied customers of Mid-Kansas bulls and females.

STANDARD GUARANTEE

(Recommended by American Shorthorn Association)

- A. Proper care must be given to purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf, must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee, the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt, it shall be returned to the purchaser at his expense. In case of dispute, the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder, the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy, if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.

SALE MANAGER'S MESSAGE

Mid-Kansas Shorthorn sales have made it possible for Shorthorn breeders over Central United States to purchase breeding stock at a competitive show and sale. The 53 Shorthorn bulls for our 1969 spring sale represent some of the best Shorthorn breeders in the United States. 10 head of Polled Shorthorns sell in this sale.

If you are in need of a herd sire for either a purebred or commercial herd, don't miss this 1969 Mid-Kansas Shorthorn Sale.

More cattlemen are realizing the value of cross breeding. Shorthorn cattle are known for that extra weight for age, plus their quiet disposition, that makes them easy to handle. Always a large percent of the Shorthorn bulls in this sale are purchased for cross breeding.

The females in this sale are a choice offering, and some fancy heifers that would be a credit to any herd. Also, outstanding heifers for 4-H projects. Here you will find bulls and females that can mean extra profits for your cattle operations in 1969, and for years to come.

Remember, this is not a new sale. Buyers from California, Texas, Idaho, the Dakotas and the Central States have bought in this sale. If you are in need of Shorthorns, be in Salina April 2nd and 3rd.

Plan to attend the informal Banquet, Wednesday, April 2, 7:00 p.m., Holiday Inn, on the 81 By-Pass west of Salina.

This general get-to-gether is open to all. Come as you are. If you have not made reservations, come anyway. If you cannot attend this sale, you may phone or send mail bids to the sale manager, or any of the representatives. To contact sale manager for any late messages or bids, phone Salina Chamber of Commerce or sale barn at fairgrounds.

CLEARVIEW GLOSTER JET—This bull is out of our good Gloster cow family. His mother is a half sister to the dam of Eddie Grathwohl's Clearview Gondolier, the bull who has produced so many champions for him. He's a proven bull. We used him lightly in our herd and have some real good calves by him. Also have about 15 heifers now bred to him. Out of our Fed. ACC. T.B. herd No. 550104, and Lepto vaccinated Feb. 4, 1969.

PA DO VEGAS CHIEF x— A lot of our friends have asked for a big, long, modern bull; well, here he is! His dam was a 1450 pound long, productive Miller cow; and Chieftain's record as a sire of muscular modern cattle is well known. Chief x was recently named a sire of distinction as he earned the Production Registry Award from PRI. Vegas x weighed 529 pounds at 210 days and 942 pounds at a year, which is excellent for an Aug. calf. Looks like a sure dehorner. Semen tested.

PA DE KIOWA CHIEF X—Without doubt one of the biggest, heaviest boned, soundest-footed bulls to sell in America this year. PRI 205-day weight was 610 pounds, 365 day weight was 1030 pounds, and best of all, he weighed 1810 pounds on his second birthday. He was on a feed test and gained 3.05 pounds per day on a 70% roughage ration, using only 7.42 pounds of feed per pound of gain, which must rank excellent. His extreme scale, long smooth muscle, and ease of movement are very impressive. His full brother is gaining 4 pounds per day at Conners bull test station. His dam is an outstanding, big, heavy-milking cow. Sutherland Chieftain x; All-American, Int. Jr. Champion, and PRI Production Registered; weighed over 700 pounds at 7 months, 1065 pounds at a year, and now weighs nearly a ton at KABSU.
